**Dear Sir/Madam**

## **ADVANCE NOTICE OF NIGHTWORK CARRAIGEWAY RESURFACING**

### **Sloane Street – Brompton Road to Cadogan Place North**

As part of the Public Realm Scheme being undertaken on Sloane St, it is intended to resurface the carriageway at the above location and shown on the image overleaf. These works will be carried out by FM Conway and are planned to commence on the **25th September 2024** the works should take three nights to complete.

Owing to traffic conditions, the scale of the project, and public safety considerations these works are to be carried out at night between **20.00 hours** and **05.00 hours**. It is planned that most of the noisy operations will take place before midnight. During these hours Sloane St will be closed to all traffic.

These works will generally be carried out in two separate stages comprising the removal of the road surface followed by the laying of new surfacing and road markings. These works will be carried out with the minimum of disruption to residents but there may be some noise during preparatory stages and the removal of the old surface. The road will be subject to a traffic order during the period of work. Restrictions and diversions will be in operation.

In addition to the yellow On-Street suspension signs, you can search for parking suspensions in your street and register to receive suspension alerts by email at [www.rbkc.gov.uk/parking/suspensionsearch.asp](http://www.rbkc.gov.uk/parking/suspensionsearch.asp).

I apologise for any temporary inconvenience and should you require further information please do not hesitate to contact the Council through the e-mail addresses listed in this letter or Mr. I. Neville of FM Conway on 07760 222521.

Yours sincerely,

Mr T. Ings,  
Senior Engineer.
